Thank you for taking the time to read these guidelines. We appreciate your assistance in maintaining the cleanliness and safety of our facilities.

# Respect Wildlife

Follow these basic guidelines to ensure the safety of you and animals with respect to wildlife:

- **Do NOT feed wildlife under any circumstances.** Feeding wildlife creates an expectation that they can receive food from you (and other campers) in the future. This can make them persistent and sometimes violent, and may attract wildlife to your site.
- **Avoid contact with wildlife.** While it is certainly tempting to approach wildlife, this can be very dangerous.
- **Keep safe viewing distances.** When watching wildlife, make sure to keep a safe distance.
- **Avoid attracting wildlife to your campsite** with the following methods:
  - Keep food secured in airtight containers. Not only will it be fresher, it will attract less unwanted attention from wildlife.
  - Keep your food out of reach of wildlife.
  - Keep your campsite clean. Collect any food packaging and food scraps in a waste bag and dispose of the waste in the campground's receptacle before you leave the camp or turn in for the night.
  - Do not feed wildlife. Not only will they become more aggressive toward you, they will be more likely to be a nuisance for campers who use the site after you.
  - Do not take food inside your tent. While it's tempting to have that midnight snack on hand, it will attract wildlife.

"Trust me."
